

Tests for Recurrent Pregnancy Loss

Factor V Leiden mutation

Prothrombin gene mutation

Fasting glucose

Fasting homocysteine level

Phosphatidylserine antibodies IgG, IgM, IgA

Anticardiolipin antibodies IgG, IgM, IgA

Protein C activity

Protein S activity

Antithrombin III activity

Beta 2 glycoprotein I antibodies IgG, IgM, IgA

Chromosome analysis

TSH level

Prolactin

Day 3 FSH & Estradiol levels

Sonohysterogram
